TOP FOUR

DESIGN ALBERTO BASAGLIA NATALIA ROTA NODARI

Top Four ha colto la sfida "Led". Non più lampada e lampadina ma un unico elemento che genera luce. Un Top supporta quattro corpi illuminanti completamente integrati.

Quattro led che finalmente possono dare il massimo della loro prestazione grazie alle lenti che ne moltiplicano l'efficienza.

Luxit, con Top Four ed il suo design accattivante, porta l'illuminazione a led anche a casa tua. Ideale come luce di lettura sopra il comodino o come luce d'accento in ogni ambiente domestico, Top Four è un gioiello di tecnologia nato dallo sviluppo della fortunata serie di lampade tecniche per illuminare spazi pubblici architettonici Top Ten.

Top Four seized the "Led" challenge. There's no more fixture and light source but a unique element that do generate light. One Top does support four lighting bodies which are completely integrated.

Four leds that at last can give the best of their performance thanks to the lenses which multiply their own efficiency.

Luxit, with Top Four and its charming design, brings led lighting even in your house. It's perfect as reading light on your bedside table or as accent light in every home environment.

Top Four is a technology jewel born from the development of the technical range Top Ten which have been designed to light up architectural public areas.
